

New batteries fitted internally and externally to our alarm.

10 [Verified Review](#)

Thanks to Lee, excellent work as always. We are loyal customers with Lee and he always delivers efficient and excellent service. He responds quickly with a quote and arranging when to complete the work. Lee has great experience and we trust him completely. The job was to replace the batteries in our alarm, that Lee fitted ten years ago and was completed efficiently and on time as agreed. The final bill was even a little cheaper than the quote, which was greatly appreciated.

New power-point in bedroom, replace central light fitting in two rooms and new switch.

**9.75** Verified Review

Excellent service, very tidy. I would recommend Lee's work.

Location: DorsetOctober 2018

Went above and beyond!

**10** Verified Review

Lee is an absolute gem - I called him in a mad panic because everything just stopped working suddenly and offered to pay anything it cost to get him out to fix the issue before I go on holiday, and instead of taking advantage of this (which I wouldn't blame him for!) he instead very patiently stayed on the phone with me for an hour as he knew I could fix it myself, and talked me through how to isolate the issue and we found the problem! Incredibly helpful, patient and knowledgeable, would call him out for an actual paid job any time!

Location: DorsetFebruary 2018

Kitchen appliance fault.

**10** Verified Review

A few years ago for the first time we used Lee to replace our main fuse box. Excellent job all round. Last week a circuit in

the kitchen kept unexpectedly tripping- a call to Lee and he was fast professional and determined to resolve it asap. It proved to be the washing machine to our surprise. Without Lees knowledge we would have been lost, but more than that, I can honestly say I've not come across a more helpful or professional person in the trade and I fully recommend Pure Electric to anyone.

Location: Dorset June 2017

## Advice

### 10Verified Review

Oops, Silly Me ....mistakenly asked for an Electrician instead of a Plumber to replace my Electric Emersion Heater Element !! All I can say is Communication was 1st Class!!!.....Immediate Response / Polite and Helpful in pointing me in the right direction ....THANK YOU.

Location: DorsetAugust 2016

Fitted 3 ceiling fans, installed cable/switch and light in internal cupboard, replaced existing under cupboard kitchen lights with new ones, installed cabling for new electric oven and laid cable ready for connection in the garage

### 10Verified Review

We have had Lee, Pure Electric on numerous occasions and his work has always been of the highest standard. His work, to name a few, has included fitting an electric shower, fitting kitchen wall lights, fitting 3 ceiling fans, installing cable/switch and light in internal kitchen cupboard, replacing existing under kitchen cupboard lighting with new, Lee is very professional and extremely knowledgeable in his profession and very hot on what the regulations demand. He is punctual, neat and tidy and very methodical. We always value his advice and expertise and thoroughly recommend him.

Location: DorsetJuly 2016

Installed exterior wall lights.

## 10 Verified Review

I have used Lee many times whilst updating our house over the last four years. He has recently installed five outdoor wall lights that look amazing. His work is of the highest standard which is why I wouldn't use anyone else.

Location: Dorset June 2016

New fuse board, smoke detectors, new bathroom lights.

## 10 Verified Review

Very pleased with the quality of work. Completed in the estimated time and arrived punctually. Will definitely be recommending to friends and neighbours. The cost was as estimated with no unexpected extras. Left everything very clean and tidy.

Location: Dorset June 2016

Upgrade wiring, new light fittings including repositioning, and electrical safety check.

## 10 Verified Review

This is the third time we have used Lee's services. As before, excellent service and complete trust in the quality of work carried out. A very belt and braces approach to his work with great attention to detail. I would, without hesitation, recommend this company. A credit to the electrical trade.

Location: Dorset May 2016

Investigation work after water ingress caused elec circuit to shut off leaving us with no electricity in many parts of the house.

## 10 Verified Review

Lee from Pure Electric was recommended by another tradesman and came out to investigate the problem. It was all fixed within a few hours and Lee also drew my attention to various safety issues within the system. He is very professional and clearly very knowledgeable I would not hesitate to recommend this company.

Location: Dorset April 2016

Partial rewiring, new consumer unit/fuseboxes, new lighting, new circuits, smoke alarms, full safety checks

## 10 Verified Review

We had an electrical survey with a different company on a Grade II listed thatch for sale. Luckily we got a second opinion and Lee kindly gave 2 hours of his own time giving us sound advice. Lee is all about doing things safely, professionally and to what the regulations demand and luckily for us he discovered some potentially lethal things the previous cowboy had missed. Lee then talked us through what was needed, the essentials and non-essentials. His work on a new consumer unit was outstanding and use of different circuits detailed. Lee takes great pride in his work and is 100% reliable

Location: Dorset February 2016

New sockets fitted throughout the house, including replacing some existing single sockets with doubles.

## 10 Verified Review

Lee brought the date for work to be done forward, having checked with us first that this was convenient. A very tidy,

efficient and good quality job done. We can thoroughly recommend him.

Location: DorsetSeptember 2015

Location: DorsetMarch 2015

**Installed new lighting.**

**10** [Verified Review](#)

Lee provided us with excellent advice regarding our dark and dingy kitchen, he carried out the work to a very high standard. We now have a bright and safe kitchen. It is rare to find an efficient and professional person these days, but we did with Lee. Will recommend to all our friends and family. Thank you Lee.

Location: DorsetMarch 2015

**Outdoor and indoor lighting.**

**10** [Verified Review](#)

Lee took the time to research the type of lighting that would be most suitable for our project which was successfully installed to a very high standard despite being faced with one or two obstacles. Lee also took the time to explain all aspects of the work to be carried out which made it easy to understand. Extremely happy with the service and workmanship.

Location: Not Available March 2015

New consumer unit fitted and other remediation work undertaken.

### 10 Verified Review

We first contacted Lee one Saturday late afternoon when we had an electrical emergency and he was good enough to come round within the hour. He diagnosed the issue quickly and temporarily got us back up and running. He subsequently returned and has done a full survey and remedial work. Some of the worst DIY he has ever seen was his comment. Always professional and takes great pride in his work I would recommend Lee to anyone.

Location: Dorset February 2015

Consumer unit upgrade.

### 10 Verified Review

Lee arrived punctually and explained how he was going to do the installation, first checking all the circuits before switching the power off, then fitting the new consumer unit. We now have spare capacity in the new consumer unit for any new circuits in the future and everything is one hundred per cent protected. I have no hesitation in recommending Pure Electric as Lee is a first class tradesman who takes pride in his work.

Location: DorsetFebruary 2015

Installed 4 double sockets and lighting switch to garage.

10Verified Review

We called Pure Electric and another company to quote for the installation of a cooker hood but Lee from Pure electric whilst checking the consumer unit told us that our electric shower was not protected and that the wiring to the sockets in the garage could be liable to abrasion and cause a fire and did not conform to the IEE regulations, the other company failed to mention any of this. We booked Lee to return to renew all the sockets in the garage. Work done was absolutely first class, have booked Lee to fit new consumer unit in a couple of months time. I highly recommend Pure electric.

Location: DorsetJanuary 2015

New consumer unit/fit electric shower circuit/fit new electric heaters.

10Verified ReviewLee fully explained work to be done. Made sure I was happy the way he would route wiring and heaters. Gave me quote for work to be done and stayed to the quote. Always on time. Work neat and done to a high standard.

Location: Dorset September 2012

Telephone consultation. 10 [Verified Review](#) We were presented with a problem with the cooker fusing out whilst trying to cook dinner! My husband phoned Lee Ward, he could not have been any more helpful - absolutely brilliant!! He was unable to visit our home due to child care, but he spent 15/20 mins on the

phone talking my husband through how to check the fuse box and how to isolate the problem. It enabled me to use the oven and be clear the problem was the hob (which has now been fixed by other company, yet to join CAT (but he is great too)). We would HIGHLY recommend Lee if we needed advice or a call out - he is now in my book for future use. Many thanks Lee

Location: DorsetSeptember 2012

Install new fuse box and terminal box for cooker.

10Verified Review

I contacted Lee after reading the Checkatrade reviews and was not disappointed. I would highly recommend him, he is extremely pleasant, very tidy and does an excellent job. I have every faith in what he tells me and will certainly be calling on him again.

Having used Lee previously I knew I would get a really professional job done and I am very pleased with the outcome.

Location: Dorset July 2012

**Complete re-wire**

**10** Verified Review

Lee was recommended by a lettings agency. He did a complete rewire of a flat that needed surface mounting of trunking rather than chasing into walls. We do not live in The UK but Lee was very good at sending photos of work in progress and was able to talk for extended times on the telephone to explain what was needed beforehand and how things were going during the job. Once the job was complete, we met at the flat and he talked through everything that he had done. The completed work looked exceptionally neat and tidily done. We would certainly use him again if we need to.

Location: Not Available June 2012

Changing RCD unit through to rewiring offices!

10 Verified Review

Fantastic electrician who I regularly use for both domestic and commercial work. Reliable, professional, and thorough in his work. It is lovely to be able to recommend someone whole heartedly.

Location: DorsetMay 2012

**Assistance troubleshooting electric fault in cooking range.**

**10** Verified Review

After I performed some basic diagnosis on a fault with halogen display boxes on my Hopkins Fish and Chip frying range, I needed just a guiding hand to help me track down the precise fault. Lee came out and carefully listened to what I had worked out so far, which wasn't complicated, but Lee made me feel good about what I had deduced. He then explained what he was doing, showing me the logical steps he would follow in troubleshooting a fault like this. Being ex-IT, I know how easy it is to bamboozle the uninitiated with terminology and turn something easy into something complicated! At no point did Lee do this, great customer service skills, nothing a problem for him at all. Lee wasn't with me long, but I actually gained personal confidence in my abilities, to help resolve the issue. I will now always use Lee as my electrician, whether business or domestic He is a rare commodity in the world of service providers, and I can't recommend him highly enough.

Location: DorsetMay 2012

**Assessment of faulty shower electrical fault**

**10** Verified Review

Lee arranged to assess the damaged electrics within 2 days of my first contact and arrived at the property within the timescale given. I was initially reassured by the courteous

communication and clearly outlined pricing. My reassurance was confirmed when Lee completed his assessment on the property. The invoice was clear, concise, and included photographs. It was delivered the same day by email, and Lee was available to discuss a plan of action on the telephone the same day. I have full confidence that Lee will more than competent to undertake the work needing to be completed. Pure Electrics is a number now entered on my mobile phone for any future emergencies!

Location: Dorset March 2012

Lee came round to fix pendant lights securely to ceiling.

## 10 Verified Review

Lee originally came round to fix one pendant light to ceiling but actually did two. He texted me to keep my informed before his arrival and was happy to do work even though it was a very small and trivial job. Excellent service and would be more than happy to recommend his services for any electrical jobs that need doing.

Location: Not Available March 2012

Periodic Inspection and Test Report and Installation of bonding conductors to water

## 10 Verified Review

Lee was most helpful, informative and concerned for the safety of my home electrics and explained what was required in order to make my electrics safe, he carried out the work efficiently and professionally. He is prompt, reliable and I would certainly recommend him.

Location: Dorset March 2012

Changed light fitting in cloakroom (Pull cord)

## 10 Verified Review

Very efficient, courteous and professional. Lee fitted in my job at very short notice, and at my convenience. Although this was a small job he has done major electrical work for me in the past. I asked for some cards so that I can recommend him to my family and friends. Delighted with the service.

Location: Not Available February 2012

Installation of bonding conductors to water and gas supplies. Replaced sockets, pendants + fault finding.

### 10 [Verified Review](#)

It was a pleasure to have Lee working at my house. He always arrived on time and tidied up thoroughly before he left. He was reliable, friendly and trustworthy. He is well qualified and very knowledgeable about electrics. On his last visit I had to go out for a while. When I got back he had finished laying a cable behind the cooker and moved the cooker back into place. However he had taken photos on his phone so that he could show me exactly what he had done. Lee is always willing to take the time to explain what he is doing. As this particular job took less time than we had anticipated he reduced my bill for me. I will have no hesitation in using Lee again and I will be recommending him to my friends and family.

Location: Dorset January 2012

Full Re-wire of House/Garage

### 10 [Verified Review](#)

Lee was very professional and courteous from start to finish. We had a total re wire of house and garage, I cannot fault the work ethic nor could I have imagined that the chasing into the wall could have been done as neatly as it was. All aspects of his work were neat and tidy and the end result is fantastic.

## 10 Verified Review

Lee is a top class electrician who takes a great deal of attention to detail to the work he does. Have recommend already. Thanks.

Location: Not Available August 2011

## Emergency help

10 [Verified Review](#)

Following a rain storm all our electricity failed on the Thursday. The next morning I managed to get it to work, but then rang Lee to make an appointment to get it checked out - it was agreed he would come on the following Tuesday. On the Friday evening (8.45pm) the same thing happened and, with some trepidation, I rang Lee to see if he could help. He could not have been MORE helpful! He talked me through what I needed to do and we restored all but the lights downstairs - he then agreed to come the following Saturday morning instead of the Tuesday. On his arrival (at the time promised) he set about his work with thorough professionalism and attention to detail and spent an hour and a half isolating the problem and then rectifying it. Everything about him (from the tidiness of his van upwards!) demonstrates his commitment to doing a superb job. Not only another triumph for Checkatrade but a personal one for him. I will DEFINITELY use him for all my future electrical needs.

Location: Dorset August 2011

## Earthing, Complete New Fuse Box Updating Sockets

10 [Verified Review](#)

We cannot speak highly enough of this company. The work was carried out to a very high standard. Completely reliable, turns up on time and always gives advice before you consider

any work, always gives certification of all work done. Estimates are very reasonable and no job has been over estimated, in fact one job cost less than the estimate, not many firm's will do that.

Location: Not Available July 2011

## Rewire conservatory

**10** [Verified Review](#) Lee completed a rewire of our conservatory, which included adding Two additional sockets in our lounge, fitting new sockets in our conservatory and also new light fittings. We asked Lee to use a product called D - line trunking, wood effect, which would match better with the woodwork and brick wall, rather than the unsightly Standard White conduit. Although it took a little longer to fit, and Lee had not used the product before, Lee came back for a third day to ensure that the job looked right. We both stood back to inspect the completed work after silicone with a matched mapei sealant, I think Lee was just as impressed with the finished result as I am, stating that he might use D line again as the result is very good. Lee took some photos of the work which I am happy for him to show. Thanks for all your hard work Lee, in what was a difficult environment to work in with the greenhouse heat effect of a conservatory, you did well.

Location: Not Available July 2011

Electric bonding, fuse box, new wiring for cooker.

**10** [Verified Review](#)

Lee has been to us three times now, he always arrives on time, looks tidy and clean. The work is always explained and on one occasion he charged less than we were quoted. He tidies up and leaves everything clean and satisfactory.

Electrical survey, new consumer unit & heaters

10 [Verified Review](#)

I'd asked him to replace a faulty immersion heater in my old hot water tank & was made fully aware of the risks. Tank warped & began leaking during the work (which wasn't the sparky's fault, the tank was knackered). Lee contacted plumbers & organised quotes / estimates & liased with plumber & sorted it all out for me (as I work full time) to prevent me from worrying. A fab guy!!!

Light fittings and electrical test.

10 Verified Review

The reason I want to nominate Lee is because he went above and beyond the call of duty in working for us. Lee went out of his way to help us to resolve problems left by another contractor as well as helping us to decipher the various regulations. He was consistently reliable and honest.

installed wiring for a Wessex Spas Hot Tub

10 Verified Review

They have consistently provided a high level of customer service and we now only recommend LW Electrical Contractors to carry out the electrical installation work for our Hot Tubs, they are reliable, courteous and professional and offer excellent value for money, we cannot recommend them highly enough. Keep up the good work.

Testing inspection.

10 Verified Review

Lee carried out inspection and testing for the company that I worked for, in that time with us he demonstrated his ability to work well with our team. Time and time again he demonstrated his professionalism in his workmanship and ability to put right problems that he found, while offering advice on how to prevent them in the future. Lee is a great credit to his trade and a prime example of what a contractor should be like. keep up the good work
